## EDUCATION SHAPING COURAGEOUS YOUNG PEOPLE

Active Training have done an exemplary job of delivering the Certificate III in Fitness at Tyndale Christian School for a number of years. Julie and Richard are experts in their field and keep the students on track and engaged throughout the course, preparing our students well to begin their journey in the health and fitness industry.

Kristen Thomas - Pathways Leader

Tyndale Christian School is a multi-campus Christ-centred school, providing quality Christ-centred education to over 2,000 students at Salisbury East, Murray Bridge and Strathalbyn.

### CERTIFICATE III IN FITNESS

The School has a strong focus on its sport and sports science with an elite sports programme, aimed at the students who want to take their sport to the next level. Titled the High Performance Athlete Programme (HPAP), it features on-site development to assist students with finding a pathway in health or sport post-school, and also features our Certificate III in Fitness with access to the sports science laboratory.

Tyndale School also focuses strongly on transitioning from school to work. The HPAP, coupled with Certificate III in Fitness, enables students with a passion for sport and fitness a viable career pathway in the sporting and fitness industry and greater opportunities for part-time employment while studying or training.

Active Training has been delivering Certificate III in Fitness to the School since 2018.

### ABOUT ACTIVE TRAINING

Active Training is a committed team of experts delivering quality training since 2008. We provide Training to the aquatics and fitness industry and are proud to provide vocational Training to Cornerstone College, Trinity College, Blakes Crossing Christian College, Pedare Christian College and Tyndale Christian School in South Australia. We aim to create a community of active people learning, teaching, and contributing to the fitness and aquatics industry. Over 17,000 people have started their active journey with us, including athletes who now play sports as professionals for our State. We are a proudly South Australian owned and operated Registered Training Organisation (RTO 40276).
